STILL FLEECING PUBLIC

There is no greater delusion than that cherished by a few active people among the farmers, who accept at par the claims of Republican leaders that the emergency tariff law will contribute to better prices for farm products. It is evident, however, that the bill, with its oppressive rates, is to be made effective, and the farmers will have a chance to find out whether the higher rates upon farm products are to be instrumental in securing increased prices during the bill's operation. The hypocrisy of the measure is plainly shown by a refusal of Republican tariff-makers in the Senate to adopt a Democratic proposal to place upon the free list manufactured products which the farmer needs in the production of his crops. They know that the increased duties on farm products will prove a delusion and a snare to the farmers, but they are so effectually committed to such deceptive practices that they ity—are found in Munsing wear.

Robert Neumann, formerly of the German army, Thursday was sentenced to six months by the war criminals court. He has been found guilty of maltreating British war prisoners. He was the third defendant to be arraigned in the supreme court, which is trying former German soldiers for warcrimes.

Dr. William H. Gelston of Camden told the New Jersey State Dentar Society in annual convention at Atlantic City that an "old-fashioned chew of tobacco" is one of the best disinfectants known to dental science. He declared that if reformers succeeded in banishing tobacco diseases of the teeth and gums are likely to increase.

After hearing denunciation of the shipping board for its mismanagement of the merchant marine by Senator Kenyon, Republican, of Iowa, and others, the senate Friday approved a 75 million dollar deficiency appropriation for it, and a few hours later passed the deficiency appropriation bill carrying a total of 156 million dollars, including the shipping board item. In approving the appropriation, the senate added an amendment offered by Senator Lenroot, Republican, of Wisconsin, directing the board to sell all of its wooden ships by October 1, next.
